

**PHOTOS**

**SINES SAFETY SHOE**

**Fusion Sole: PU/PU**

**UPPER**

Printed Leather with excellent resistance to water and different oils. Highly flexible and with remarkable perspiration characteristics.

Mesh Space 3D lining for high breathability.

CarbonLight, polycarbonate Toe Cap.

Q-Flex, non-metallic flexible insole with perforation resistance and thermal isolation.

Exchangeable, antistatic and high comfort insock.

**SOLE**

Two layer sole: PU/PU.

Second layer of softer PU which provides an excellent impact absorption, softness and comfort for prolonged use combined with a hard PU sole allows good adhesion with excellent abrasion resistance.

Width: 11cm

**TECHNOLOGY**

**S3 – SRC – WR**

**S3:** Closed heel area, antistatic properties, heel energy absorption, resistance to fuel oil and water penetration and absorption, anti-puncture resistance, cleated outsole.

**SRC:** Slip resistance surfaces, sodium lauryl sulfate, steel, glycerin.

**WR:** Water Resistance

**CE EN ISO 20345:2011**

**MAIN BENEFITS**

Excellent anti-slip features

Wide last for greater comfort
